

*An Experiential Learning Program by Eagles Flight Asia*

In Jungle Fire your attendees will find themselves transported to the metaphorical Amazon for a fast-paced treasure hunt. Their quest will be to find a hoard of diamonds that lies on the far side of a dense rain forest, while also dealing with the impending threat of a monsoon that could derail all their progress!

With so much to be done and only 24 hours to do it, attendees will participate in a friendly race against other teams who are also on the hunt. With concerted focus on the right objective, a solid plan, astute risk management, and smart allocation of resources and skills, it is possible to achieve the goal. No matter how teams place, the experience leaves attendees better equipped to plan, communicate, and perform together to deliver tangible business results.

### **The Outcome:**

While we're big on fun, we also know that your event needs to make a real impact. Here are just a few of the things that attendees will walk away confidently able to do:

- Recognize how time taken in planning translates to time saved in execution
- Make informed decisions about which objectives will produce the best quality results
- Identify and utilize all relevant information
- Appreciate the variety of strengths that exist on any given team and utilize them
- Take considered, appropriate risks from a position of strength, not desperation
