

An Experiential Learning Program by Eagles Flight Asia

In 1934, Dr. Thomas Rae, world-renowned archaeologist, unearthed a priceless find – the Emperor Tiberius’s atrium floor. Knowing that others were after the same discovery, Dr. Rae kept his findings secret by recording each piece of information in code.

In this experience, centered around a mysterious puzzle, teams of attendees will set out to reconstruct the atrium floor based on the clues provided. Ultimately, The Discovery of Dr. Thomas Rae teaches attendees how coaching can transform behaviors and corporate culture for the better. This transformation will happen as a result of attendees’ practice in delivering effective feedback and working toward a common goal during the experience.

The Outcome:

While we’re big on fun, we also know that your event needs to make a real impact. Here are just a few of the things that attendees will walk away confidently able to do:

- Apply and practice coaching skills on the job
- Create stronger relationships between the leader and the team members
- Use teamwork principles as the standard for giving and receiving coaching and feedback
- Practice the C.O.A.C.H. principles
